**REQUEST OF THE UNITED STATES POSTAL SERVICE TO ADD GLOBAL PLUS 3
TO THE COMPETITIVE PRODUCT LIST AND NOTICE OF FILING A
GLOBAL PLUS 3 CONTRACT NEGOTIATED SERVICE AGREEMENT AND
APPLICATION FOR NON-PUBLIC TREATMENT OF
MATERIALS FILED UNDER SEAL
(June 10, 2016)**

In accordance with 39 U.S.C. § 3642 and 39 C.F.R. § 3020.30 et seq., the United States Postal Service (Postal Service) hereby requests that Global Plus 3 contracts be added to the competitive product list within the Mail Classification Schedule (MCS). Pursuant to 39 U.S.C. § 3632(b)(3) and 39 C.F.R. § 3015.5, the Postal Service also gives notice that it has entered into a Global Plus 3 contract with a customer.

Prices and classifications not of general applicability for Global Plus 1 Contracts were established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Global Plus Contracts, issued on May 28, 2008 (Governors' Decision No. 08-8).¹ Subsequently, the Postal Regulatory

¹ A redacted copy of this decision was filed as an attachment to the United States Postal Service Notice of Filing Redacted Copy of Governors' Decision No. 08-8, Docket Nos. CP2008-8, CP2008-9, and CP2008-10, June 16, 2008. An unredacted copy of the decision, as well as a record of proceedings, was filed under seal with the Notice of United States Postal Service of Governors' Decision Establishing Prices and Classifications for Global Plus Contracts, Docket No. CP2008-8, June 2, 2008.

Commission (Commission) included the Global Plus 1 contracts filed in Docket Nos. CP2008-9 and CP2008-10,² as well as the Global Plus 1 contracts filed in Docket Nos. CP2009-46 and CP2009-47,³ within the Global Plus 1 product on the competitive products list. Then, the Commission added Global Plus 1A contracts,⁴ Global Plus 1B contracts,⁵ as well as Global Plus 1C contracts⁶ to the competitive product list.

Similarly, prices and classifications not of general applicability for Global Plus 2 Contracts were established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Global Direct, Global Bulk Economy, and Global Plus Contracts, issued on July 16, 2008 (Governors' Decision No. 08-10).⁷ Subsequently, the Commission included the Global Plus 2 contracts filed in Docket Nos. In particular, the Commission advised that "[f]uture requests to implement a new baseline agreement should be filed as an MC docket since it will result in adding a new product to the product list and may result in removing a product from the product list." The Postal Service is not undertaking to remove Global Plus 1C or Global Plus 2C from the product list at this time, however, because Global Plus 1C contracts and Global Plus 2C contracts with customers are currently in effect.

I. Identification of Existing Global Plus 3 Contracts

One Global Plus 3 contract is submitted with this filing. That contract's terms fit within the revised MCS language for Global Plus Contracts, which includes the Global Plus 3 contract product, that is set forth in Attachment 3 of this filing. Global Plus 3 Contracts are contracts whereby the Postal Service provides prices for some

¹⁵ Attachment 3 includes revisions to Section 2510.6 of the MCS, which concern Global Plus Contracts, that currently appears in PRC, (Draft) Mail Classification Schedule, posted January 15, 2016 (with revisions through April 10, 2016), available at <http://www.prc.gov/mail-classification-schedule>.

combination of International Priority Airmail service (IPA), International Surface Air Lift service (ISAL), Priority Mail Express International service (PMEI), Priority Mail International service (PMI), and Commercial ePacket service (CeP) when the contractholder acts as a “Mailer,” and additional prices for PMEI service and PMI service when the contractholder acts as a “Reseller.”

The contract that is the subject of this filing is the immediate successor to the instrument that the Commission found to be eligible for inclusion in the Global Plus 1C product in Docket No. CP2015-68. The contract is on behalf of the same customer as in Docket No. CP2015-68. The Postal Service would prefer that the contract included with this filing go into effect on July 1, 2016. In accordance with Article 19, if the effective date of the agreement is the first of the month, the agreement shall remain in effect for one calendar year from the effective date. If the effective date of the agreement is not the first of the month, the agreement shall remain in effect until the last day of the month in which the effective date falls in the year subsequent to the effective date.

The Postal Service respectfully requests that the instant contract be considered as the new “baseline” contract for future functional equivalency analyses concerning the Global Plus 3 product.¹⁶ As such, in keeping with the Commission’s classification approach in Order No. 622, the renewed contract would presumably be listed as Global Plus 3 on the competitive product list.

The Global Plus 3 product is distinct from the Global Plus 1C product and the Global Plus 2C product because it allows the contractholder to act as a reseller of PMEI

¹⁶ See PRC Order No. 85, at 8 (applying standards for the filing of functionally equivalent contracts); Order No. 622, at 7.

and PMI at discounted rates, which is set forth in the proposed revisions to MCS 2510.6 Global Plus Contracts to accommodate Global Plus 3 contracts that is included in this filing as Attachment 3. This change is reflected in the financial models that are included in this filing. This change to the Global Plus 1 product is authorized by Governors' Decision No. 11-6, which states that with respect to Outbound International Competitive Agreements, such as Global Plus agreements, "management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to present such product descriptions to the Postal Regulatory Commission."¹⁷

IV. Filing under Part 3020, Subpart B of the Rules of Practice and Procedure

Pursuant to 39 C.F.R. § 3020.30, in support of the Postal Service's proposed addition of a product not of general applicability to the competitive product list appearing in the MCS, the Postal Service is providing a copy of Governors' Decision No. 11-6. In addition, the Postal Service is including with this filing a copy of the applicable sections of the MCS for Global Plus 3, which the Postal Service is proposing to revise as set forth in Attachment 3, as authorized by Governors' Decision No. 11-6.

In addition, in accordance with 39 C.F.R. § 3020.30, the Postal Service is providing a Statement of Supporting Justification of Frank Cebello, Director, International Sales, as Attachment 1. This Statement is a revision of the Statement of Supporting Justification by the same individual, which was included in the Postal Service's request to add the Global Plus 1 product as a competitive product within the

¹⁷ Governors' Decision No. 11-6, at 1-2. Governors' Decision No. 11-6 states that "Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2)."

MCS, in Docket Nos. CP2008-8, CP2008-9, and CP2008-10.¹⁸ Mr. Cebello's statement provides support for the addition of Global Plus 3 to the competitive products list.

Under 39 U.S.C. § 3642(b), the only criteria for such review are whether the product qualifies as market dominant, whether the product is excluded from the postal monopoly, and whether the proposed classification reflects certain market considerations. Each of these criteria has previously been addressed in relation to Global Plus contracts.¹⁹ In Order No. 43, the Commission assigned all negotiated service agreements (NSAs) concerning outbound international mail to the competitive category.²⁰ All Global Plus 3 contracts, regardless of whether they may be classified as a single product or individually, are NSAs concerning outbound international mail.

First, as for 39 U.S.C. § 3642(b)(1), the product does not qualify as market dominant. The Postal Service does not exercise sufficient market power so that it can effectively set the price of Global Plus 3 "substantially above costs, raise prices significantly, decrease quality, or decrease output without risk of losing a significant level of business to other firms offering similar products."²¹ Therefore, the Postal Service is proposing that the Global Plus 3 Contracts product be added to the competitive products list. Subsequently, other functionally equivalent contracts would be added to the list as price categories under the Global Plus 3 Contracts listing.

¹⁸ United States Postal Service Response to Order No. 81 and Notice of Filing Information Responsive to Part 3020 of the Commission's Rules of Practice and Procedure, Docket Nos. CP2008-8, CP2008-9, and CP2008-10, June 13, 2008, Attachment A.

¹⁹ See Request of the United States to Add Global Plus 1B to the Competitive Products List and Notice of Filing Two Functionally Equivalent Global Plus 1B Contracts Negotiated Service Agreements, Docket Nos. MC2011-7, CP2011-39 and CP2011-40, December 9, 2010, at 6-7; Notice of the United States Postal Service of Filing Two Functionally Equivalent Global Plus 1A Contracts Negotiated Service Agreements, PRC Docket Nos. MC2010-26, CP2010-67, and CP2010-68, July 13, 2010, at 8.

²⁰ PRC Order No. 43, Order Establishing Ratemaking Regulations for Market Dominant and Competitive Products, Docket No. RM2007-1, App. A, at 9, 11.

²¹ 39 U.S.C. 3642(b)(1).

Second, as for 39 U.S.C. § 3642(b)(2) and whether the product is excluded because it is subject to postal monopoly, the Qualifying Mail in Global Plus 3 contracts are intended for the conveyance of merchandise, which falls outside the scope of the Private Express Statutes. Furthermore, any “letters” as defined by 39 C.F.R. § 310.1(a) that are inserted in such items would likely fall within the suspensions or exceptions to the Private Express Statutes. For instance, the rates at issue in the contract that is the subject of Docket No. CP2016-196 exceed the scope of the reserved area in 39 U.S.C. § 601. Moreover, the suspension for outbound international letters covers the mailing activity in question here.²²

Therefore, there is no further need to ponder whether Global Plus 3 contracts, as defined by the proposed MCS language, are market dominant or covered within the postal monopoly. The additional considerations listed in 39 U.S.C. § 3642(b)(3) are addressed by Mr. Cebello’s Statement of Supporting Justification, included as Attachment 1 to this filing. Because all of section 3642’s criteria for classification have been met, the Postal Service respectfully urges the Commission to act promptly by adding the Global Plus Contracts 3 product to the competitive products list as requested.

III. Application for Non-Public Treatment

The Postal Service maintains that certain portions of Governors’ Decision 11-6, the Global Plus 3 contract that is the subject of CP2016-196, the certified statement concerning the Global Plus 3 contract that is the subject of CP2016-196, and related financial information should remain confidential. In accordance with 37 C.F.R. § 3007.21 the Postal Services files, as Attachment 6 to this request and notice, the Postal

Service's application for non-public treatment of materials filed under seal. A full discussion of the requested elements of the application appears in Attachment 6.

V. Conclusion

For the reasons discussed above, and on the basis of the financial data filed under seal, the Postal Service has established that this new Global Plus 3 contract is in compliance with the requirements of 39 U.S.C. § 3633 and fits within the proposed revised Mail Classification Schedule (MCS) language for Global Plus Contracts, as authorized by Governors' Decision No. 11-6. Accordingly, the Postal Service requests that Global Plus 3 be added to the competitive product list, that the contract included in this filing be included within the Global Plus 3 product, and that the contract included in this filing be considered the baseline agreement for future functional equivalency analyses for the Global Plus 3 product.

As required by 39 U.S.C. § 3642(d)(1), a notice concerning this Request is being sent for publication in the Federal Register.

Statement of Supporting Justification

I, Frank Cebello, Director, International Sales, am sponsoring this request that the Commission add the Global Plus 3 contract filed in Docket Nos. MC2016-152 and CP2016-196 to the competitive products list for prices not of general applicability. The proposed revised Mail Classification Schedule (MCS) language for Global Plus describes the requirements for this type of contract. This statement supports the Postal Service's Request by providing the information required by each applicable subsection of 39 C.F.R. § 3020.32. I attest to the accuracy of the information contained herein.

- (a) *Demonstrate why the change is in accordance with the policies and applicable criteria of the Act.*

As demonstrated below, the change complies with the applicable statutory provisions.

- (b) *Explain why, as to market dominant products, the change is not inconsistent with each requirement of 39 U.S.C. § 3622(d), and that it advances the objectives of 39 U.S.C. § 3622(b), taking into account the factors of 39 U.S.C. § 3622(c).*

Not applicable. The Postal Service is proposing that the Global Plus 3 contract be added to the competitive products list. Other functionally equivalent contracts would be added to the list as price categories under the Global Plus 3 Contracts listing.

- (c) *Explain why, as to competitive products, the addition, deletion, or transfer will not result in the violation of any of the standards of 39 U.S.C. § 3633.*

Adding this Global Plus 3 contract to the competitive product list will improve the Postal Service's competitive posture, while enabling the Commission to verify that the contract covers its attributable costs and makes a positive contribution to coverage of institutional costs. This contract, along with each contract that is functionally equivalent to these contracts, will increase contribution toward the requisite 5.5 percent of the Postal Service's total institutional costs paid for by competitive products. Accordingly, no issue of subsidization of competitive products by market dominant products arises.

- (d) *Verify that the change does not classify as competitive a product over which the Postal Service exercises sufficient market power that it can, without risk of losing a significant level of business to other firms offering similar products: (1) set the price of such product substantially above costs; (2) raise prices significantly; (3) decrease quality; or (4) decrease output.*

When negotiating Global Plus 3 contracts, the Postal Service's bargaining position is constrained by the existence of other shippers who can provide services similar to the Postal Service's. As such, the market precludes the Postal Service from taking unilateral action to increase prices or decrease service. Global Plus 3 contracts concern volume-based incentives for the tendering of large volumes of International Priority Airmail (IPA), International Surface Air Lift (ISAL), Priority Mail Express Mail International (PMEI), Priority Mail International (PMI), all of which have been classified as competitive by virtue of their exclusion from the letter monopoly, as well as the significant level of competition in their respective markets. Furthermore, Commercial ePacket (CeP) service is a delivery confirmation service that is only available for IPA

items to certain destinations. Because IPA has been classified as competitive and CeP is only available with IPA items, CeP was classified and appears in the current MCS language for Global Plus as an optional feature to IPA.

As with each of the respective underlying products in general, the Postal Service may not decrease quality or output without risking the loss of business to large competitors that offer international express and package delivery services. The relevant market also does not allow the Postal Service to raise prices or offer prices substantially above costs; rather, the contracts are premised on prices that provide sufficient incentive for customers to ship specified volumes with the Postal Service rather than a competitor. If the Postal Service were to raise these prices, it risks losing these customers to a private competitor in the international shipping industry.

- (e) *Explain whether or not each product that is the subject of the request is covered by the postal monopoly as reserved to the Postal Service under 18 U.S.C. § 1696, subject to the exceptions set forth in 39 U.S.C. § 601.*

Because IPA, ISAL, PMEI, PMI, and CeP (the underlying products included in Global Plus 3 contracts) fall outside the prohibition on private carriage of letters over post routes by virtue of the exceptions to the Private Express Statutes, Global Plus 3 Contracts are not subject to that prohibition. See part (d) above.

- (f) *Provide a description of the availability and nature of enterprises in the private sector engaged in the delivery of the product.*

See part (d) above. Private consolidators and freight forwarders also may offer international shipping arrangements whereby they provide express and

package delivery services under similar conditions.

- (g) *Provide any available information on the views of those who use the product on the appropriateness of the proposed modification.*

The customers for Global Plus 3 Contracts are Postal Qualified Wholesalers (PQWs) and other large businesses that offer mailing services to end users for shipping articles via IPA, ISAL, PMEI, PMI and/or CeP. Many of these customers have previously entered into Global Plus Contracts, Global Reseller contracts, or other international negotiated service agreements with the Postal Service that covered a number of different services, including IPA, ISAL, PMEI and PMI. The customers find such arrangements sufficiently attractive to explore the possibility of entering into a Global Plus 3 contract with the Postal Service. This indicates that the relevant segment of postal customers in general, as well as their end users, find this type of product to be preferable to similar products offered by the Postal Service's competitors. Customers are aware that competitive services are provided by other entities. However, no specific data are available to the Postal Service on Global Plus Contract 3 customer views regarding the regulatory classification of these contracts.

- (h) *Provide a description of the likely impact of the proposed modification on small business concerns.*

The market for international delivery services comparable to IPA, ISAL, PMEI, PMI, and CeP is highly competitive. Therefore, addition of Global Plus 3 Contracts will likely have little, if any, impact upon small business concerns. Large shipping companies, consolidators, freight forwarders and foreign posts

operating in the United States serve this market, particularly with respect to the type of customers represented by these Global Plus 3 contracts; the Postal Service is unaware of any small business concerns that could offer comparable service for these volumes.

In addition, these Global Plus 3 Contracts will be part of the contractholders' service offerings to their own end users, which include small businesses. By offering the prices in these Global Plus 3 Contracts, the Postal Service is giving small businesses an additional option for shipping articles internationally, beyond the services offered by private competitors. Thus, the net impact on small businesses is positive, because of the absence of negative impact on small business competitors, and because of the positive impact on the small businesses who will use the services that the Global Plus 3 customers can offer them under these contracts.

- (i) *Include such other information, data, and such statements of reasons and bases, as are necessary and appropriate to fully inform the Commission of the nature, scope, significance, and impact of the proposed modification.*

The customer eligibility criteria included in the proposed MCS language for Global Plus Contracts are consistent with those in the Global Plus product classification in the most recent version of the MCS that appears on the Commission's website.¹

ESTABLISHMENT OF PRICES AND CLASSIFICATIONS FOR DOMESTIC COMPETITIVE
AGREEMENTS, OUTBOUND INTERNATIONAL COMPETITIVE AGREEMENTS, INBOUND
INTERNATIONAL COMPETITIVE AGREEMENTS, AND OTHER NON-PUBLISHED
COMPETITIVE RATES (GOVERNORS' DECISION NO. 11-6)**

March 22, 2011

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices not of general applicability for certain of the Postal Service's competitive service offerings, and such changes in classification as are necessary to implement the new prices.

This decision establishes prices for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates. Domestic Competitive Agreements consist of negotiated service agreements with Postal Service customers for domestic services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Inbound International Competitive Agreements consist of negotiated service agreements with foreign postal operators or other entities for inbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Other Non-Published Competitive Rates consist of rates not of general applicability that are not embodied in contractual instruments, but nonetheless arise from other sources, such as the Universal Postal Convention.

With respect to any product within the above categories, management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to present such product description to the Postal Regulatory Commission.

The Postal Accountability and Enhancement Act (PAEA) requires that prices for competitive products must cover each product's attributable costs, not result in subsidization by market dominant products, and enable all competitive products to contribute an appropriate share to the Postal Service's institutional costs. For agreements subject to this Decision, there are hereby established all prices that will cover [REDACTED] [REDACTED] costs for the relevant product and that conform in all other respects to 39 U.S.C. §§ 3632-3633 and 39 C.F.R. §§ 3015.5 and 3015.7. As discussed in the accompanying management analysis, the Chief Financial Officer (or his delegee(s)) shall certify that all cost inputs have been correctly identified for prices subject to this Decision and that all prices subject to this Decision conform to this Decision and to the requirements of the PAEA.

No agreement, grouping of functionally equivalent agreements, or other classification authorized pursuant to this Decision may go into effect unless it is submitted to the Postal Regulatory Commission with a notice that complies with 39 U.S.C. § 3632(b)(3). On a quarterly basis, management shall furnish the Governors with a report on all non-published rate and classification initiatives. Not less than once each year, the Governors shall review the basis for this Decision and make such further determination as they may deem necessary. This Decision does not affect postal management's obligation to furnish to the Board of Governors information regarding any significant, new program, policy, major modification, or initiative, or any other matter under 39 C.F.R. § 3.7(d), including where such a matter also falls within the scope of this Decision.

Management may also continue to present to the Postal Regulatory Commission for its review, as appropriate, rate and classification changes to succeed the minimum and maximum non-published rates in Decision Nos. 10-2 and 10-6.

ORDER

In accordance with the foregoing Decision of the Governors, the prices set forth herein for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates and the changes in classification necessary to implement those prices, are hereby approved and ordered into effect. An agreement is authorized under this Decision only if the prices fall within this Decision and the certification process specified herein is followed. Management Analysis of Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates

This analysis concerns the inbound competitive prices and classifications in the Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates (collectively, "competitive instruments"). Competitive instruments are often negotiated with customers and foreign postal operators for better cost coverage, higher overall contribution, and improved service with respect to postal services classified as competitive. They may also arise from other sources, such as the Universal Postal Convention.

The cost coverage for each competitive agreement or grouping of functionally equivalent instruments (collectively, each "product") will be [REDACTED]

Each competitive instrument may have multiple price categories and negotiated components. Examples of such categories or components would be Priority Mail, Express Mail, Parcel Return Service, Priority Mail International, Express Mail International, International Priority Airmail, International Surface Air Lift, Inbound Air Parcel Post, Inbound Surface Parcel Post, Inbound Direct Entry, and Inbound International Expedited Services. These or other categories may include other services that the relevant customer or foreign postal operator offers to its customers under differing terms, but that nevertheless are processed and delivered in the same manner within the United States Postal Service's network. Such instruments may also establish negotiated rates for services ancillary to such items and for customized competitive services developed for application solely in the context of the agreement.

Prices established by these formulas should not interfere with competitive products' ability as a whole to comply with 39 U.S.C. § 3633(a)(3), which, as implemented by (39 C.F.R. § 3015.7(c)) requires competitive products to contribute a minimum of 5.5 percent to the Postal Service's total institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C. § 3633(a)(1)).

Certification of Prices for the Global Plus 3 Contract with
[REDACTED]

I, Steven Phelps, Manager, Regulatory Reporting and Cost Analysis, Finance Department, United States Postal Service, am familiar with the prices for the Global Plus 3 Contract with [REDACTED]. The prices contained in this contract were established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates, issued on March 22, 2011 (Governors' Decision No. 11-6), which established prices by means of price floor formulas.

I hereby certify that the numerical cost values underlying the prices in the [REDACTED] Contract are the appropriate costs to use in the formulas and represent the best available information. The prices, resulting in a cost coverage in excess of the minimum required by the Governors' Decision, are in compliance with 39 U.S.C § 3633 (a)(1), (2), and (3). The prices demonstrate that the Contract should cover its attributable costs and preclude the subsidization of competitive products by market dominant products. International competitive mail accounts for a relatively small percentage of the total contribution by all competitive products. Contribution from Global Plus 3 Contracts should be even smaller. The Agreement with [REDACTED] should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs.

Steven Phelps

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3007.21, the United States Postal Service (Postal Service) hereby applies for non-public treatment of certain materials filed with the Commission in these dockets. The materials pertain to the establishment of prices and classifications not of general applicability for Global Plus 3 contracts.

The contract and supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5 are being filed separately under seal with the Commission. Redacted copies of the related Governors' Decision, the certified statement required by 39 C.F.R. 3015.5(c)(2), and the contract are filed as Attachments 2, 4, and 5 to the Postal Service's Request and Notice, respectively. A redacted version of other financial documentation is filed publicly as a separate Microsoft Excel document.

The Postal Service hereby furnishes the justification required for this application by 39 C.F.R. § 3007.21(c) below.

(1) The rationale for claiming that the materials are non-public, including the specific statutory basis for the claim, and a statement justifying application of the provision(s);

Information of a commercial nature, which under good business practice would not be publicly disclosed, as well as third party business information, is not required to be disclosed to the public. 39 U.S.C. § 410(c)(2); 5 U.S.C. § 552(b)(4). The Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of

a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A).¹ Because the portions of materials filed non-publicly in this docket fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant its application for their non-public treatment.

(2) Identification, including name, phone number, and email address for any third-party who is known to have a proprietary interest in the materials, or if such an identification is sensitive, contact information for a Postal Service employee who shall provide notice to that third party;

In the case of Global Plus 3 contracts, the Postal Service believes that the third parties with a proprietary interest in the materials would be the counterparty to the contract, the PC Postage Provider(s) if the contract allows for and the customer intends to use a PC Postage Provider, and foreign postal operators,

The Postal Service maintains that customer identifying information should be withheld from public disclosure. Therefore, rather than identifying the customer and the PC Postage Provider (if applicable) for the contract that is the subject of this docket, the Postal Service gives notice that it has already informed the customer and the PC Postage Provider (if applicable) that have a proprietary interest in the materials for the contract that is the subject of this docket of the nature and scope of these dockets and their ability to address their confidentiality concerns directly with the Commission.²

The Postal Service employee responsible for providing notice to any third parties with proprietary interest in the materials filed in these dockets is Ms. Kathy L. Lynch,

¹ The Commission has indicated that “likely commercial injury” should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

² The Postal Service has provided a blanket notice to PC Postage Providers in light of the fact that these filings are fairly routine. To the extent required, the Postal Service seeks a waiver from having to provide each PC Postage Provider notice of this docket.

Sales Support Specialist, Global Business, United States Postal Service, 475 L'Enfant Plaza, SW, Room 5425, Washington, DC 20260-4017, whose email address is kathy.l.lynch@usps.gov, and whose telephone number is 202-268-6662.

As for foreign postal operators, the Postal Service recently provided notice to all foreign postal operators within the Universal Postal Union network through an International Bureau Circular issued on January 18, 2016, that the Postal Service will be regularly submitting certain business information to the Commission. Some UPU-designated foreign postal operators may have a proprietary interest in such information. The circular includes information on how third parties may address any confidentiality concerns with the Commission. In addition, contact information for all UPU Designated Operators is available at the following link, which is incorporated by reference into the instant application: http://pls.upu.int/pls/ap/addr_public.display_addr?p_language=AN.³

(3) A description of the materials claimed to be non-public in a manner that, without revealing the materials at issue, would allow a person to thoroughly evaluate the basis for the claim that they are non-public;

In connection with its Notice filed in this docket, the Postal Service included redacted copies of Governors' Decision No. 11-6 (Attachment 2), the Global Plus 3 contract that is the subject of Docket No. CP2016-196 (Attachment 4), the certified statement concerning the Global Plus 3 contract that is the subject of Docket No. CP2016-196 (Attachment 5), and related financial information. These materials were filed under seal, with redacted copies filed publicly. The Postal Service maintains that

³ To the extent required, the Postal Service seeks a waiver from having to provide each foreign postal operator notice of this docket. It is impractical to communicate with dozens of operators in multiple languages about this matter. Moreover, the volume of contracts would overwhelm both the Postal Service and the applicable foreign postal operators with boilerplate notices.

the redacted portions of the contract, related financial information, and identifying information concerning the customer should remain confidential.

Redactions appear on page two of Governors' Decision No. 11-6, pages one and two of Attachment A of that Decision, throughout the Global Plus 3 contract that is the subject of Docket No. CP2016-196, and the certified statement concerning the Global Plus 3 contract that is the subject of Docket No. CP2016-196. These redactions protect sensitive commercial information concerning rates in Global Plus 3 Contracts and their formulation, the applicable cost-coverage, and the specific rates in the Global Plus 3 contract that is the subject of Docket No. CP2016-196.

With regard to the Global Plus 3 contract included as Attachment 4, some customer identifying information appears in the redacted sections of the agreement on page 1, in Article 35 concerning notices, in the signature block, and in the footer of the agreement and its annexes. This information constitutes the name or address of a postal patron whose identifying information may be withheld from mandatory public disclosure by virtue of 39 U.S.C. § 504(g)(1) and 39 U.S.C. § 410(c)(2). Therefore, such information is redacted.

The redactions to Article 2, 6, 7, 8, 13, 14, 20, 21, 22, 32, 36, and 43 protect information with specific impact on the customer, including certain definitions, as well as negotiated contract terms, such as the minimum revenue commitment agreed to by the customer, various penalties, the discount received, and the percentage of cost increases that may trigger a consequential price increase.

The redactions made in the Annexes of the contracts, other than those involving the customer's name, withhold the actual prices that are being offered to the customers

in exchange for commitments and performance of their obligations under the terms of the agreement.

The redactions applied to the Governors' Decision and financial workpapers protect commercially sensitive information such as underlying costs and assumptions, pricing formulas, information relevant to the mailing profile of the customer, business information of interested third parties, and cost coverage projections. To the extent practicable, the Postal Service has limited its redactions in the workpapers to the actual information it has determined to be exempt from disclosure under 5 U.S.C. § 552(b). However, in a limited number of cases, narrative passages, such as words or numbers in text, were replaced with general terms describing the redacted material. For example, where the mailer's name appears in the spreadsheet within a cell, it has been replaced by the word "Mailer."

To the extent that the Postal Service files data in future filings that will show the actual revenue and cost coverage of the customer's completed contract, the Postal Service will redact in its public filing all of the values included that are commercially sensitive information and will also protect any customer identifying information from disclosure.

(4) Particular identification of the nature and extent of commercial harm alleged and the likelihood of such harm;

Governors' Decision No. 11-6 and its Attachment A, as well as Attachments 4 and 5 and the accompanying financial models, include the Postal Service's desired cost coverage for Global Plus 3 agreements, specific rate information and a detailed description of the methodology used to establish the rates, which are highly confidential in the business world.

If the portions of the contract that the Postal Service determined to be protected from disclosure due to their commercially sensitive nature were to be disclosed publicly, the Postal Service considers that it is quite likely that it would suffer commercial harm. First, revealing customer identifying information would enable competitors to focus marketing efforts on current postal customers that have been cultivated through the efforts and resources of the Postal Service. The Postal Service considers that it is highly probable that if this information were made public, its competitors would take immediate advantage of it. The Global Plus 3 competitive contracts include a provision allowing the mailer to terminate its contract without cause by providing at least 30 days' notice. Therefore, there is a substantial likelihood of the Postal Service losing customers to a competitor that targets customers of the Postal Service with lower pricing.

Other redacted information in the contract includes negotiated contract terms, such as certain definitions, the minimum revenue commitment agreed to by the customer, various penalties, sensitive business information including payment processes and mail preparation requirements, and the cost increase that may trigger a consequential price increase. This information is commercially sensitive, and the Postal Service does not believe that it would be disclosed under good business practices. Competitors could use the information to assess offers made by the Postal Service to its customers for any possible comparative vulnerabilities and focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Additionally, other potential customers could use the information to their advantage in negotiating the terms of their own agreements with the Postal Service. The Postal Service considers

these to be highly probable outcomes that would result from public disclosure of the redacted material.

The Governors' Decision and financial workpapers filed with this notice include specific information such as costs, assumptions used in pricing formulas, the formulas themselves, mailer profile information, projections of variables, contingency rates included to account for market fluctuations and the exchange risks. Similar information may be included in the cost, volume and revenue data associated with this Global Plus 3 agreement, which the Commission may require the Postal Service to file after the expiration of this agreement. All of this information is highly confidential in the business world. If this information were made public, the Postal Service's competitors would have the advantage of being able to determine the absolute floor for Postal Service pricing. Unlike its competitors, the Postal Service is required to demonstrate that each negotiated agreement within this group covers its attributable costs. Furthermore, the Postal Service's Governors have required that each contract be submitted to the Commission with a notice that complies with 39 C.F.R. § 3015.5.⁴ Competitors could take advantage of the information to offer lower pricing to Global Plus 3 customer, while subsidizing any losses with profits from other customers. Eventually, this could freeze the Postal Service out of the relevant delivery services markets. Given that these spreadsheets are filed in their native format, the Postal Service's assessment is that the likelihood that the information would be used in this way is great.

⁴ Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Global Plus Contracts (Governors' Decision No. 08-8), May 28, 2008, at 2-3 and Attachment A; Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Global Direct, Global Bulk Economy, and Global Plus Contracts (Governors' Decision No. 08-10), July 16, 2008, at 2-3 and Attachment A.

Potential customers could also deduce from the rates provided in the contract, from the information in the workpapers, or from the cost, volume and revenue data that the Commission may require the Postal Service to file after the agreement's expiration, whether additional margin for net profit exists between the contract and the contribution that Global Plus 3 contracts must make. From this information, each customer could attempt to negotiate ever-increasing incentives, such that the Postal Service's ability to negotiate competitive yet financially sound rates would be compromised. Even a customer involved in this filing could use the information in the workpapers, or the cost, volume and revenue data associated with the expired agreement, in an attempt to renegotiate its own rates, threatening to terminate its current agreement, although the Postal Service considers this to be less likely than the risks previously identified.

Price information in the contract, the Governors' Decision, the financial spreadsheets, and any cost, volume and revenue data concerning the contract filed after the agreement's expiration consists of sensitive commercial information of the customer. Disclosure of such information could be used by competitors of the customer to assess the customer's underlying costs, and thereby develop a benchmark for the development of a competitive alternative.

Information in the financial spreadsheets and any cost, volume and revenue data concerning this agreement filed after the expiration of this contract also consists of sensitive commercial information related to agreements between the Postal Service and interested third parties. Such information would be extremely valuable to competitors of both the Postal Service and third parties. Using detailed information about such agreements, competitors would be able to better understand the counterparty's

underlying costs, and identify areas where they could adapt their own operations to be more competitive. In addition, competitors of the counterparty could use such information to their advantage in negotiating the terms of their own agreements with the Postal Service. Also, competitors of foreign postal operators could use the information in the financial spreadsheets to understand their nonpublished pricing to better compete against them.

Information in the financial models may also include sensitive commercial information related to agreements between the Postal Service and PC Postage Providers. Such information would be extremely valuable to competitors of both the Postal Service and the PC Postage Providers. Using detailed information about such an agreement, competitors would be able to better understand the costs of the postage programs used, and identify areas where they could adapt their own operations to be more competitive. In addition, competitors of the PC Postage Providers could use such information to their advantage in negotiating the terms of their own agreements with the Postal Service.

(5) At least one specific hypothetical, illustrative example of each alleged harm;

Identified harm: Revealing customer identifying information would enable competitors to target the customers for sales and marketing purposes.

Hypothetical: The identity of the customer that signed a Global Plus 3 contract is revealed to the public. Another delivery service has an employee monitoring the filing of Global Plus 3 contracts and passing along the information to its sales function. The competitor's sales representatives could quickly contact the Postal Service's customer

and offer the customer lower rates or other incentives to terminate its contract with the USPS in favor of using the competitor's services.

Identified harm: Public disclosure of negotiated terms of the agreement could be used by competitors and potential customers to the Postal Service's detriment.

Hypothetical: Customer A signs a Global Plus 3 contract that is filed with the Postal Regulatory Commission. At the same time, Customer B is considering signing a similar Global Plus 3 contract and has no real concern about the penalty provision, which calls for Customer B to pay up to \$10,000 in penalty if it fails to meet its minimum volume commitment before termination of the agreement. The information about Customer A's penalty is made public. Customer A's agreement calls for a \$5,000 maximum payment as penalty. Customer B sees the information. Customer B now insists that it will not agree to be obligated to pay any more than Customer A was obligated to pay, diminishing the Postal Service's bargaining leverage. The same rationale applies to commitment levels and price adjustment terms.

Identified harm: Public disclosure of pricing in the agreement would provide potential customers extraordinary negotiating power to extract lower rates.

Hypothetical: Customer A's negotiated rates are disclosed publicly on the Postal Regulatory Commission's website. Customer B sees the rates and determines that there may be some additional profit margin between the rates provided to Customer A and the statutory cost coverage that the Postal Service must produce in order for the

agreement to be added to the competitive products list. Customer B, which was offered rates identical to those published in Customer A's agreement, then uses the publicly available rate information to insist that Customer B must receive lower rates than those the Postal Service has offered it, or Customer B will not use the Postal Service for its international delivery needs.

Alternatively, Customer B attempts to extract lower rates only for those destinations for which it believes that the Postal Service is the low-cost provider among all service providers. The Postal Service may agree to this demand in order to keep the customer's business overall, which the Postal Service believes will still satisfy total cost coverage for the agreement. Then, the customer uses providers other than the Postal Service for destinations for which the customer did not extract lower rates. This impacts the Postal Service's overall projected cost coverage for the agreement, such that the Postal Service no longer meets its cost coverage requirement. Although the Postal Service could terminate the contract when the Postal Service first recognizes that the customer's practice and projected profile are at variance, the costs associated with establishing the contract, including filing it with the Postal Regulatory Commission, would be sunk costs that would have a negative impact on the Global Plus 3 product overall.

Identified harm: Public disclosure of information in the financial workpapers would be used by competitors and customers to the detriment of the Postal Service and foreign postal operators.

Hypothetical: A competing delivery service obtains a copy of the unredacted version of the financial workpapers from the Postal Regulatory Commission's website. The competing delivery service analyzes the workpapers to determine what the Postal Service would have to charge its customers in order to meet the Postal Service's minimum statutory obligations for cost coverage and contribution to institutional costs. The competing delivery service then sets its own rates for products similar to what the Postal Service offers its Global Plus 3 customers under that threshold and markets its ability to guarantee to beat the Postal Service on price for international delivery services. By sustaining this below-market strategy for a relatively short period of time, the competitor, or all of the Postal Service's competitors acting in a likewise fashion, would freeze the Postal Service and associated foreign postal operators out of the business-to-business and business-to-customer delivery services markets for which the Global Plus 3 product is designed.

Identified harm: Public disclosure of information in the contract and financial workpapers would be used by the counterparty's and its customer's competitors to its detriment.

Hypothetical: A firm competing with the customer obtains a copy of the unredacted version of the contract and financial workpapers from the Postal Regulatory Commission's website. The competitor analyzes the prices and the workpapers to assess the customer's underlying costs, volumes, and volume distribution for the corresponding delivery products. The competitor uses that information to (i) conduct market intelligence on the customer's business practices, and (ii) develop lower-cost alternatives using the customer's costs as a baseline.

Identified harm: Public disclosure of information in the contract and financial workpapers would be used by the competitors of the third party to the detriment of the Postal Service and/or the counterparty to the agreement.

Hypothetical: A firm competing with the interested third party obtains a copy of the unredacted version of the contract and financial workpapers from the Commission's website. The firm uses the information to assess the third party's revenue sources and growth opportunities, and thereby develop benchmarks for competitive alternatives. In addition, disclosure of such information could provide leverage to other parties in their negotiations with the Postal Service concerning financial arrangements that they may make with the Postal Service in the future.

Identified harm: Public disclosure of any cost, volume and revenue data concerning this agreement that the Commission may require the Postal Service to file after the contract's expiration would give competitors a marketing advantage.

Hypothetical: A competitor could use any cost, volume and revenue data associated with this agreement, which the Commission may require the Postal Service to file in this docket after this agreement's expiration, to "qualify" potential customers. The competitor might focus its marketing efforts only on customers that have a certain mailing profile, and use information filed after the contract's expiration to determine whether a customer met that profile.

Identified harm: Public disclosure of information in a Global Plus 3 contract that includes postage payment through a PC Postage Provider, and of information in related financial workpapers, would be used by the competitors of the PC Postage Provider to the Postal Service and/or the PC Postage Provider's detriment.

Hypothetical: A firm competing with the customer's PC Postage Provider obtains a copy of the unredacted version of a Global Plus 3 contract that includes postage payment through a PC Postage Provider, and financial workpapers, from the Commission's website. The firm uses the information to assess the PC Postage Provider's revenue sources and growth opportunities, and thereby develop benchmarks for competitive alternatives. In addition, disclosure of such information could provide leverage to other PC Postage Providers in their negotiations with the Postal Service concerning financial arrangements that PC Postage Providers make with the Postal Service in the future.

(6) The extent of protection from public disclosure deemed to be necessary;

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant delivery services markets, as well as their consultants and attorneys.

Additionally, the Postal Service believes that actual or potential customers of the Postal Service for this or similar products should not be provided access to the non-public materials. This includes all competitors of the relevant customer, whether or not they are currently actual Postal Service customers.

(7) The length of time deemed necessary for the non-public materials to be protected from public disclosure with justification thereof; and

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless the Commission or its authorized representative enters an order extending the duration of that status. 39 C.F.R. § 3007.30.

(8) Any other factors or reasons relevant to support the application.

None.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.
